

Warner's Pond Task Force - Small Group Meeting  
January 25, 2025, 9:30 - 11 AM (Zoom)

Present:

Jeff Collins  
Christine Denaro  
Keith Hannon  
Bill Kemeza  
Rachel Freed, CBI Facilitator

The meeting was opened at 9:38 AM.

The Warner's Pond Task Force Small Group continued reviewing the dam removal proposal and making revisions or edits.

Bill suggested an overarching statement on wildlife habitat and shared it with the group. The group also discussed the statement about greenhouse gases (GHG) and whether it should be a single statement that applies to all of the proposals. Keith suggested that GHG be removed from the criteria; other members were unsure. Jeff noted that the dam removal workgroup would seek a more detailed explanation of "sediment manipulation," including budget and sequence.

The group agreed to meet again on Wednesday, January 29, 2025 at 4:30 PM.

No members of the public were present. The meeting was closed at 11 AM.
