CPA Funded Project Status Report

Project Name: White Pond Watershed Management Plan Project Number: #2-10

A. Describe work completed to date:

The White Watershed Management Plan was completed in May 2015.

B. Expenditure Report:

- **What is the date your project began or will begin spending CPA funds?** December 2013
- **Briefly account for the amount of CPA funds expended to date:** CPA funds were used to develop a Watershed Management Plan, which includes a description of the history and geology of the pond and its watershed; a delineation and description of the watershed and land uses within the watershed; historic and current recreational uses; sediment and nutrient loading evaluations; an assessment of biological resources; and short and long-term recommendations to 1) maintain and improve water quality; 2) identify opportunities for improved recreational use; 3) evaluate Town-owned lands within the watershed; and 4) best management practices for invasive species control.

C. Describe remaining work: No work remains outstanding and this project may be closed.

D. What is the expected project completion date? The project is complete.

Name of person who completed form: Delia Kaye Date: 6/14/18
