

Dear Community Preservation Committee Members,

I have been a volunteer coach with Concord-Carlisle Youth Lacrosse (CCYL) for the past six years, working with boys and girls from first through eighth grade. CCYL is a volunteer-run organization, and like many parents in our community, I've seen firsthand how valuable programs like this are for our youth. Each season, hundreds of families come together for practices and games, many of which are held at Memorial Field.

As both a coach and a parent, I strongly support the proposed Amenities Building. This project would provide much-needed improvements to Memorial Field—offering cleaner, safer, and more accessible facilities for players, families, and spectators of all ages. An updated building would not only enhance the experience for those participating in youth sports but also serve as a lasting investment in our broader community.

Thank you for considering this important project and for your continued commitment to improving community spaces in Concord.

Sincerely,

Dawn Guarriello

Parent and CCYL Coach
