

Dear Community Preservation Committee Members,

Concord-Carlisle Youth Field Hockey just finished up it's inaugural season. As a recreational, town-based sports program for players in Grades K-8, the organization is excited to nurture the growing community enthusiasm for the sport, and hopes to expand programming opportunities in the future.

This fall, CCYFH used Memorial Field at CCHS for all of it's programming, including weeknight practices and weekend games against teams from other towns. The proposed Amenities Building would be a tremendous improvement over the current portable restrooms on site. Players, coaches, officials, and spectators would all benefit from a more sanitary, accessible, and permanent restroom facility.

CCYFH is looking forward to calling Memorial Field home to our program for years to come and deeply appreciates the committee's consideration for investment in the Amenities Building. Thank you in advance for your dedicated efforts to support Concord's shared recreational spaces.

Best,

John O'Neill

CCYFH President
