

Dear Community Preservation Committee Members,

As part of the volunteer leadership of Concord-Carlisle Youth Softball, I want to express our support for the proposed Amenities Building at Memorial Field. Our teams use the varsity and junior varsity softball fields for practices and games throughout the spring, summer, and fall. The current portable toilets and planned Amenities Building are the closest bathroom facilities.

Our girls spend several hours on the field during a typical game, and many families will come to watch. A permanent, cleaner bathroom facility would be welcomed by everyone as a significant improvement over the current temporary solution. Additionally, it would be incredibly helpful to have running water nearby for washing hands, cleaning injuries, refilling water bottles, and supporting spectators both young and old.

We appreciate your consideration for this investment in the quality of our community's recreational spaces. We know it would make a difference to the many players and families involved in the Concord-Carlisle youth softball community.

Thank you for your time,

Toni-Lynn Hansen

Director, CCYBSoftball
