

# The “Does It Work?” Mid-Winter Home Tour

## Saturday, January 31 from 1 – 3:30PM

Snow Date: Saturday, February 7 from 1 – 3:30PM

Enjoy a cup of hot mulled cider and great conversations with neighbors!

Bring your questions. Get real answers about 21st-century electric heating, cooling, cooking, and car travel.

- Can a heat pump *really* keep a home warm throughout the winter?
- What's it like to drive an EV on a long trip?
- How does cooking on an induction stove compare to gas?
- Is it worth getting solar panels?

You may leave with new friends. You'll certainly leave with new insights, including a feel for the comfort of a heat pump-heated home in mid-winter.

**Register Now!**

Via the QR code or at  
[Concordma.gov/TourRegistration](https://Concordma.gov/TourRegistration)

Visit up to two homes during the Tour.

**You can read about each home on the registration webpage before committing.**

- Tour a home with a ducted or a ductless heat pump, depending on whether you currently have air ducts or not.
- Get a closeup look at a host's EV and home charging setup.
- See an induction stovetop demo and talk with an experienced user.
- Ask a host about installing and using solar panels to help power a heat pump, EV or other electric needs.
- See a super-efficient heat pump water heater and find out how it performs.

**You don't have to make the switch singlehandedly!**

CMLP staff will be at each home with information about no-cost coaching services and financial incentives.
